

Reminder to students!

I just received a large number of "comments" to this blog, all from students asking questions. I don't publish comments of that sort here. This is a reminder to students that if you have comments or questions about books I've written---go to the place on my website that says "e-mail me" (upper right corner)---click on that and it will allow you to send me a personal e-mail. Happy to reply to those! But not on the blog.
